

eRHIC R&D Working Groups Coordination Meeting of July 29, 2015

Attending: Sergey Belomestnykh, Ilan Ben-Zvi, Michael Blaskiewicz, Wolfram Fischer, Kerry Mirabella, Vadim Ptitsyn, Dejan Trbojevic, Robert VanWormer, Khianne Williams, Wencan Xu.

Excused: Vladimir Litvinenko, John Skaritka.

This meeting was devoted to resolving conflicts of the requested resources. Notes were taken and Kerry will produce the overall chart. Although some conflicts on people in high-demand were noted, an initial look looks promising. Kerry will produce a spreadsheet version of the necessary resources and this will be distributed soon.

Work on the resource-loaded schedule is progressing. Robert VanWormer requested data from Igor Pinayev on the CeC project which is still missing.

The schedule for the future meetings:

August 6 - Dry run for the review (whole day).

August 10 and 11 – review.
